

Summer STEM Activities

Do you have a curious child who would like to explore the mysterious world of science, technology, engineering, and math this summer? With Summer STEM Activities, students will work to explore different concepts—we may get a little messy, but we will be learning! We will be filling spots on a first come, first serve basis, so sign up today!

The following activities are designed for students entering 2nd -5th grades in Fall 2018.

Description

Session #1 *Glowing Liquids and Other Light Experiments*

Monday, June 11th

Students will learn how to make things glow and light up with a variety of different experiments.

Session #2 *Big Explosions and Other Bursting Things*

Monday, June 25th

Students will work with different ingredients and observe the results! We will make elephant toothpaste, bubbles with dry ice (with safety equipment, of course!), and create tiny rockets!

Session #3 *Good-bye Gravity!*

Monday, July 9th

Students will learn how to fight the force of gravity. We will make a balloon hovercrafts and make other things float!

Session #4 *Cool Chemistry*

Monday, July 16th

Students will work with different substances and observe the results. We will experiment with invisible ink and make slime!

Session #5 *Crazy Catapults*

Monday, July 23th

Students will make a catapult. They will learn about changing variables such as adding weight, and manipulating the design to launch objects farther.

***Cost for each activity is \$30.** No additional supplies or costs are needed. Location is Annunciation Catholic School, room TBD. Space is limited, so please register today! All classes will go from 9-11am. Questions can be sent to Ashley Hannigan at: ahannigan@annunciationmsp.org. Please complete the registration below and send payment to the office by **Thursday, May 31st**. Checks should be payable to *Annunciation*.
