

What began as “school” for our first child developed into a long love affair for our entire family. Our four children are very different from each other, but at Annunciation they all thrived.

– ANNUNCIATION SCHOOL PARENT

Annunciation provides our children with an environment that feels secure and respectful and therefore ignites their desire to learn.

– ANNUNCIATION SCHOOL PARENT

Words I would use to describe our experience with this community are: friendly, accepting, fun, comfortable, creative, responsible and enriching.

Mission Statement

Annunciation School is a Catholic parish school. We are a united and caring community of students, staff and parents committed to learning based on Christian values. We provide our students with an outstanding religious and academic education, addressing the needs of the whole child.

**A tradition of excellence in
academics, faith and values**

Annunciation School is a vibrant, caring K-8 community. Our students, teachers and parents are committed to continuing our more than 80-year tradition of academic excellence, faith, and Catholic values.

Academics

Annunciation School takes great pride in our high academic standards. Incorporated into our everyday curriculum are Spanish, Computer Lab, Creative Arts, Library and Physical Education. Our curriculum goes beyond the conventional classroom by offering a variety of enrichment experiences reaching every type of learner. We limit the number of students per classroom allowing our teachers to nurture each student's individuality. Additionally, we offer a vast array of extracurricular activities so students can further explore their interests.

Faith

At Annunciation School, students participate in a community of faith in which we instill an understanding of the importance of Catholic traditions. We welcome students and families from all faiths and backgrounds. Students are encouraged to develop a personal faith that respects God's gifts of life and earth, and the dignity and diversity of others. We invite all students to participate in liturgies and daily prayer.

Values

Annunciation School's success is a direct result of our students' and parents' active involvement in both the school and our community. Students are encouraged to use their education and gifts for the good of others. Within the school, older students are regularly paired with younger ones to mentor, serve as role models, and foster friendships. To the greater community, our students volunteer to support a variety of social justice projects, locally and internationally.

Annunciation School educates the whole child — academically, emotionally, spiritually, socially, physically, and artistically.

The Annunciation School community believes that each student is a gift of God entrusted to our care.

We chose Annunciation because we were not only looking for a challenging and nurturing school for our children, but a vibrant and inviting community for our whole family. We have found both at Annunciation.
